FOR IMMEDIATE RELEASE

02/03/25

President Trump is Delivering on His Commitment to Protect our Kids

Last week, President Donald J. Trump [took executive action](#) to protect American children from irreversible chemical and surgical mutilation.

It's already having its intended effect — preventing children from being maimed and sterilized by adults perpetuating a radical, false claim that they can somehow change a child's sex. Hospitals around the country are taking action to downsize or eliminate their so-called “gender-affirming care” programs:

- **NEW YORK:** NYU Langone Health has [started](#) canceling appointments for so-called “gender-affirming care” involving minors. They canceled appointments for “two 12-year-olds who had been scheduled to receive implants that dispense puberty-blocking medication.”

- **COLORADO:** Denver Health [announced](#) it would stop performing sex change surgeries on minor children, while UCHHealth [said](#) it is ending so-called “gender-affirming care” for all minors.
- **VIRGINIA:** VCU Health and Children’s Hospital of Richmond have [“suspended”](#) providing transgender-related medication and surgeries for minors, while UVA Health has [“suspended”](#) all transgender-related services for minors.
- **WASHINGTON, D.C.:** Children’s National Hospital has [“paused”](#) prescribing puberty blockers and hormone therapies for minors, while Northwest Washington Hospital has [done the same](#).
- **ILLINOIS:** Lurie Children’s Hospital of Chicago is [“reviewing”](#) their transgender-related services for minors.
- **PENNSYLVANIA:** Children’s Hospital of Philadelphia is [“closely reviewing”](#) the transgender-related services they provide for minors.

President Trump will always protect American children.

Promises made, promises kept – again.
